GLOBALCONSULT

Enterprise AI Workforce Training

A large workforce was upskilled on AI-agent collaboration, lowering operational drag within the first quarter.

Key Outcomes

- 5,000+ employees upskilled
- 20% reduction in operational overhead in the first quarter
- Stronger AI adoption at enterprise scale

Business Context

GlobalConsult needed structured workforce enablement so teams could work effectively with AI systems across the business.

Agentix Labs Solution

Agentix Labs delivered AI workforce training centered on agent collaboration, operational adoption, and practical deployment readiness.

Implementation Highlights

- AI workforce training
- Operational enablement
- Enterprise adoption support
